## P R E F A C E

### THE HISTORY OF BURLINGTON

In the Piedmont section of North Carolina, in Alamance County, and on the Greensboro-Raleigh branch of the Southern Railway, a progressive city is found. This city is called Burlington.

In 1866 Burlington was designated as Company Shops and held that name for over twenty years. It was the official home of the North Carolina Railroad. Four miles from Company Shops stood the first cotton mill in the South that engaged in the manufacture of colored cloth. This mill has just recently been discontinued. In that section the blood of the American patriots first stained the soil in resistance of the despotic rule of England as administered by the Royal Governors.

In 1887 Company Shops was incorporated as Burlington. It was an industrial community. The bulk of the early citizenship was formed from railroad officials, mechanics, machinists, engineers, trainmen, cotton manufacturers, and farmers.

Little by little industries developed and now Burlington proudly claims seven cotton mills making one million yards of textiles per week; fifteen hosiery mills making seventy thousand dozen pairs of hose per week; two furniture factories turning out one hundred suits of furniture per week; three dyeing and finishing plants, one large coffin factory, one paper box factory, one flour mill making nine hundred barrels of flour per week; four wood working plants; and one foundry and machine plant. The industrial payroll is over seventy-five thousand dollars per week. The average wage per day is two dollars. As allied business, hosiery jobbing concerns have developed business which amounts to between eight and ten million dollars in sales per year. Burlington is the main market for a considerable territory.

Light and gas are secured from the Southern Power Company and North Carolina Public Service Company. Burlington has an abundant

water supply from Stoney creek. Water is cheap here as it is only thirty-eight and one-half cents for the first two hundred gallons.

There are thirty-five miles of sewer mains, eighteen miles of paved streets, and thirty-six miles of paved sidewalks. There are three thousand, five hundred homes wired for electricity, four hundred homes and one hundred factories using gas.

Real estate in Burlington is valuable. Within the past year, three hundred thousand dollars worth of homes were constructed. The assessed valuation of Burlington is ten million dollars. The personal value is two million, two hundred forty thousand and seventy-four dollars. The real estate value is six million, four hundred seventy-four thousand dollars. The value of railroads and other property is five hundred, forty-three thousand, seven hundred and sixty dollars. People here have been aided by banking and trust companies in buying and furnishing their homes. There are five banks and trust companies in Burlington which have almost five million dollars in combined assets.

Burlington's tax rate is reasonable and is sufficient to cover all needs of the city. The city tax rate is one dollar and seventy cents on one hundred dollars; the county tax is one dollar and forty-five cents on one hundred dollars.

Burlington is very proud of a new, modern, well equipped hotel. The Alamance. This hotel is valued at three hundred fifty thousand dollars and is making Burlington a convention city.

Within the past year many conventions met here. The total debt for this city for 1925 was one million, five hundred twenty-eight thousand five hundred dollars.

Burlington has very good educational advantages. It has a nine month school term. There is one high school, three grammar schools, and one colored school.

Each school has an excellent cafeteria, managed by capable and experienced women. There are about one thousand seven hundred twelve pupils attending these schools. Within four miles of Burlington there is an A-grade Christian college, Elon College.

There are sixteen churches in Burlington all of Protestant denominations. In most manufacturing cities few workers attend church, but

## CLASSIFIED BUSINESS DIRECTORY

—OF—

# Burlington, N. C.

VOL. IV

(1927-28)

VOL. IV

NOTE—Patronize those whose names are in large type, for they are the progressive ones and generally leaders in their line.

Index appears in front of special business headings only, for which an extra charge is made.

(\*)—Purpose of star (\*) in front of name is to denote colored persons or firm, but we assume no responsibility for its wrong use; errors often creep in.

## BURLINGTON, N. C., STREET DIRECTORY

GIVING NAMES OF HOUSEHOLDERS AND DENOTING BUSINESS PLACES

VOL. IV

(1927-28)

VOL. IV

NOTE:—Streets numerically named are to be found after those arranged alphabetically. All house numbers are arranged numerically following the description and location of each street, giving the name of householder.

Purpose of star (\*) in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use; errors often creep in.

Dash (—) before name denotes that number is wanting.

# PRINTING

**In Fact, Anything You Want in the Printing Line**

**Our Aim Is Good Workmanship  
and Prompt Service**

Ever since the day Ben Franklin revolutionized the world by his first sheet, fresh with printer's ink, the printing industry has come to the front by leaps and bounds. Today printing is an absolute necessity.
